Evelyn Sun

CURRICULUM VITAE

Backend Engineer

Shanghai | evelyn.sun@example.invalid | 000-0000-0210

Target: Backend Engineer | Preferred cities: Shanghai, Hangzhou | Available: November 2026 | Salary: negotiable

Backend engineer with three years of experience building document services and internal platforms. Comfortable with Python, PostgreSQL, asynchronous jobs and production debugging. Works closely with product and frontend teams.

PROFESSIONAL EXPERIENCE

Shanghai Northbay Systems Ltd. | Backend Engineer

July 2023 - September 2026 | Full-time

Built Python APIs and asynchronous workers for document intake, review and export. Owned database changes, service metrics and release checklists.

Reduced median document-processing time from 14 seconds to 6 seconds and introduced traceable job states for support teams.

SELECTED PROJECTS

Document Intake Service | Backend developer

January 2024 - May 2025 | Python, FastAPI, PostgreSQL, Redis

Designed upload validation, retry policies and status endpoints. Added idempotency keys to prevent duplicate jobs and maintained integration documentation.

Operations Visibility Dashboard | Service owner

June 2025 - August 2026 | OpenTelemetry, Prometheus, Docker

Added request tracing and service-level indicators for seven internal services. Reduced average incident investigation time from 45 to 22 minutes.

EDUCATION

University of Nottingham Ningbo China | BSc Computer Science

September 2019 - June 2023 | Campus: Ningbo, China | Graduated

Average score: 78/100. Final-year project: document classification and searchable metadata.

TECHNICAL SKILLS

Python / FastAPI / PostgreSQL / Redis / Docker / Linux

API design, SQL optimization, background jobs and observability

Comfortable writing technical proposals, reviewing code and maintaining operational runbooks.

LANGUAGES & ADDITIONAL INFORMATION

Mandarin: native | English: IELTS 7.5, October 2024

Portfolio: https://portfolio.example.invalid/evelyn-sun

Age and date of birth are not specified. Available for hybrid work and regular technical collaboration.
